

# CENTRAL OHIO GREENWAYS: a natural connection

## CENTRAL OHIO TRAIL DEVELOPMENT 2011

Trails provide an opportunity for people to enjoy the many streams and wooded corridors throughout Central Ohio and connect to parkland, open space and communities. The trails can be used for exercising, commuting to work, or to just get out and enjoy the outdoors.

Currently, almost 100 miles of trails are completed throughout Central Ohio and we know the major question is “When will more trails be built?” The trail development

spreadsheet will provide the latest information on trail development across Central Ohio. The spreadsheet will provide information on who is responsible for building the trail, the name of the trail, when the trail will approximately be built, cost estimate, and the length and description of the trail.

For additional information please contact the organization that is responsible for building the particular trail of interest.

ORGANIZATION/CITY	TRAIL	STATUS	COST	LENGTH/DESCRIPTION
City of Dublin	Riverway Park	Design Dev	\$85,000.00	1/2 Mi North Ext.
	Hutchins Prop	Design Dev	\$80,000.00	1/2 Mi North To Corp Limit
	Metro Center	Complete	\$750,000.00	1 Mi. Office Park Bike Path
	Misc. Gap Filling	Design Dev	\$150,000.00	Annual Approx 7 Mi.
	Brand Road	Alt Assess	\$400,000.00	2 Mi. Avery-Muifield/Dublin
	Muirfield Drive	Analysis	340,000 ('12)	2 Mi. Bike Lanes-Brand To Glick
	Dublin Rd South	Design Dev	740,000 ('12)	1 Mi. Waterford To Tuttle
